

# A-Takt Process

## *A Systemic Approach to Higher Profit*

**A-Takt** is MCN's comprehensive process for addressing persistent operational chaos. Symptoms include failed deliveries, constant expediting, chaos on the manufacturing floor, high overtime, low morale, etc.

**A-Takt** matches your operations to customer demand. Our proven techniques pace production to the rate needed for on time delivery. We then develop a customized system that maintains this balance as customer requirements change!

When operations aren't in balance:

1. A-Takt – Scheduling
2. A-Takt – Inventory
3. A-Takt – Shop Floor Organization
4. A-Takt – Scrap and Rework
5. A-Takt – Overtime
6. A-Takt – Negative Cash Flow
